# NEW! CSCLED GROW LIGHT

## THE NEW GL01 SERIES

CSC LED's Full-Spectrum Grow Light. Perfect for green house applications, cannabis and crop cultivation, vertical farming, and all other high performance, full spectrum grow light applications.

Both models feature a 120-347V driver with 4kV surge protection and passive

cooling without high maintenance fans. There is also the option to purchase AC parallel connector cables that connect fixtures for daisy chain power configuration (sold separately).
