WHAT MAKES THE CWPS SO GREAT!

The CWPS Classic Wall Pack series boasts a slim design that offers a modern twist on a classic lighting style. It retains all the features that you appreciate in a traditional contractor wall pack, but its slim and contemporary body caters to the aesthetic requirements of your project.

Equipped with a 120-347V universal driver, these fixtures are also power and colour selectable ensuring that they can meet the unique demands of your projects. You can easily select your desired power and colour output using a sliding switch, which makes the process quick and hassle-free!

This series is highly durable and easy to install with a borosilicate glass lens that resists thermal expansion and chemical damage. Plus, its large footprint makes this series retro-fit friendly!
