

ENVIRONMENTAL IMPACT

CSC LED cares about climate change and its affects on our environment. We are determined to mitigate the effects of our business activities and we strive to have the lowest possible impact on our shared environment.

“TAKE IT BACK” PROGRAM

All of our warehouse locations have a “Take It Back” program. Any product manufactured or supplied by CSC LED can be returned to any of our locations where it will be broken down and recycled correctly and efficiently - free of charge*. All products are stripped down to their bare materials and recycled accordingly. This includes aluminum, steel, copper, and all electronic components (e-waste).

COORDINATE YOUR RETURN

Please contact your local CSC LED branch for more information and to coordinate your return. Together we can make a difference.
