Suitable for 50W FLM Fixtures

INSTALLATION

- Using the hook-end, attach the lens bracket on to the bottom left side of the fixture. (Fig. 1)

Figure 1

- Secure the lens bracket in place by threading the screw through the hole located at the top of the bracket. **NOTE:** Do not tighten completely. (Fig. 2)

Figure 2

- Slide the lens between the fixture and the lens bracket. (Fig. 3)

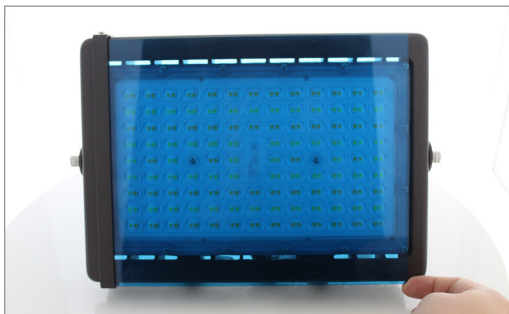

Figure 3

- Repeat the same process on the right side of the fixture, but secure the hook-end of the lens bracket at the top. (Fig. 4) Tighten both screws.
